

## How to Use This Book . . .

The activities in this book provide an excellent source of instant, cross-curricular practice for elementary students. The pages can be used as drill reinforcement or as independent instructional material and are designed to help motivate students to learn through a variety of exercises. The activities in this book are grouped by skill; these skills may overlap more than one grade level and should be used in ways that best meet each student's needs. The reproducibles are created so that a student can work with a minimum of supervision in a classroom or at home. Answer keys have been provided in the back of the book.

EXTRA! EXTRA! When you see this symbol, be sure to check out the "extra" extension activity provided.
