INTRODUCTION

Young students will gain confidence in their reading, comprehension, and handwriting skills as they complete over forty reading activities in ***Beginning Reading 2***.

Each lesson page includes an appealing short story followed by questions to test comprehension. The beginning stories are very short and simple. The questions relate closely to the stories. Progressing stories are longer and some questions require identifying word meanings, opposites, compounds, and more.

Each story is accompanied by a corresponding picture your students will enjoy coloring.
