

Clock Face Review

Clock Face:

Made up of 2 hands, 12 numbers, and 60 marks. These combine to tell the minutes and hours in a day.

Hour Hand:

The little hand. It tells the hour. It takes 60 minutes for the hour hand to reach the next hour mark.

Minute Hand:

The big hand. It tells how many minutes have passed in the hour. It takes 60

seconds for the minute hand to reach the next minute mark.

Minute Marks:

The small marks going around the clock. They tell what minute in the hour it is. *There are 60 minutes in an hour.*

Hour Marks:

The marks with the large numbers (1-12) next to them. They tell the hour. *There are 12 hours in half a day and 24 hours in a whole day.*

Name _____

Hour

When the *minute hand* points exactly to the 12, and the *hour hand* points to a number, that is the *exact hour*.

The hour hand is pointing to the 10.
That is the hour.

The minute hand is pointing to the 12.
