Spanish-English 2

TO THE TEACHER:

This unit was designed to be both functional and pleasurable. It is mainly a tool for students who are studying Spanish or English as a new language, but will bring enjoyment to those who like to look at pictures and those who delight in trying to pronounce new sounds.

Activity pages involve 120 nouns familiar to most students and can serve to develop several skills: word-picture association, verbal skills, visual perception, word pronunciation skills, and sound blending. Also, student vocabulary skills can be developed by utilizing this unit in cooperative learning situations.

The words have been grouped by category and a glossary gives the Spanish pronunciation. All Spanish nouns include the masculine or feminine article (el, la, los, las) that translates as "the" in English. The pictures are clear and convey meaning. Some students may wish to use crayons or colored pencils to add color to the pictures. Each lesson consists of two activity pages:

1. Students label each drawing by matching Spanish and English words to the appropriate picture.
2. Students match English words with their Spanish counterparts. Then Spanish clues are given for completion of a crossword puzzle with English equivalents.

While the activity pages are self-explanatory, it is recommended that the teacher give verbal directions prior to the students starting an activity.

A sentence page has been included in this unit for extended activities. A word from each lesson is used in a sentence and the sentence is presented in both Spanish and English. This gives students an opportunity to see a word in the context of a sentence, providing a further understanding of both English and Spanish.

The 120 nouns in this unit also are available on flash cards. (Order Item #928E, Spanish-English Flash Cards 2.)
