Riddles that Rhyme

Answer these riddles with two words that rhyme. The first one has been done for you.

1. a thief in a library: _____ a book crook _____

2. navy-colored slime: _____

3. a purple monkey: _____

4. a ten-cent green fruit: _____

5. a plump rodent: _____

6. a terrific film: _____

An Amazing Equation

Follow the instructions below to work out this remarkable math equation. Be sure to complete the instructions in order. You may need a piece of scratch paper in order to work some equations.

1. Write down the number of the month you were born. _____
 (For instance, if you were born in April, write down 4.)

2. Multiply the number above by 4.

$$\underline{\quad} \times 4 = \underline{\quad}$$

3. Add 13 to the number above.

$$\underline{\quad} + 13 = \underline{\quad}$$

4. Multiply the number above by 25.

$$\underline{\quad} \times 25 = \underline{\quad}$$

5. Subtract 200 from the number above.

$$\underline{\quad} - 200 = \underline{\quad}$$

6. Add the day of the month on which you were born to the number above.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

7. Multiply the number above by 2.

$$\underline{\quad} \times 2 = \underline{\quad}$$

8. Subtract 40 from the number above.

$$\underline{\quad} - 40 = \underline{\quad}$$

9. Multiply the number above by 50.

$$\underline{\quad} \times 50 = \underline{\quad}$$

10. Add the last two digits of the year of your birth to the number above.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

11. Subtract 10,500 from the number above.

$$\underline{\quad} - 10,500 = \underline{\quad}$$

What's amazing about your answer?
