Art Idea , Animal Thumbkins

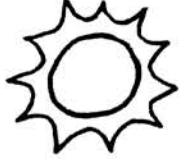

This is Aunty Sophie.

One evening, when the  was down,  had an idea.

"Let's go dancing!"

 said to  .

"We will be back before the  is up and before the  crows."

Farm Task Cards

Any theme study should begin with BRAINSTORMING, orally, with the class.

Begin with general information about farm animals. Record the ideas on a chart. You may want to discuss the phonetics of some of the words given, or ask the class to sound the word out for you as you write it on the chart. (These discussions should be limited, however, so you don't lose interest)

After the general information brainstorming session, begin categorizing and making a chart. Students should be encouraged to copy the chart in their Centre Books.

Examples of Subtopics or categories are:

1. Different Types of Farm Animals
i.e. with hooves, horns or paws etc.
2. What the animals give us
3. Taking care of the animals
4. Animal Babies
5. Groups of Animals i.e. herd, flock etc.

The students will open more sub-topics as you brainstorm.

Record all information and keep the information displayed.

Task Card # 3

Domestic or Wild ?

- A pig lives on a farm.
- A farmer takes care of pigs.
- A pig is a tame animal.
- A pig is a domestic animal.
- A bear lives in the mountains.
- A bear hunts for food.
- A bear lives with Mother Nature.
- A bear is a wild animal.
