phonics basic skills workbooks

This series of workbooks has been prepared to assist teachers and parents in improving reading skills through reinforcement of phonics. Individual difficulties are checked and double-checked through frequent reviews and tests.

The workbooks are sequenced to be used by pre-readers, beginning readers and readers having difficulties at all levels.

Previously learned skills are reinforced through reviews of the preceding workbooks for each level.

Workbooks in levels 1 - 4 contain revised units of exercises, with tests at the end of each unit for identifying skills needing further practice.

The last unit in each workbook provides an over-all test/review of all material covered for Double-Check Again of skills mastered.
